

Dear partners and students,

Below you can find a table showing the structure diagram of our two Degrees, Interior Design and Graphic Design.

Some recommendations when filling your Learning Agreement proposal:

- **All classes are taught in Spanish, so theoretical lessons will be more difficult for those who do not have enough command of Spanish.**
- **Due to timetable problems, as far as possible subjects from the same year are the best option to be selected.**
- **Be aware of annual subjects, if you are applying for just one semester, you have to divide the number of credits into two.**
- **In case you are interested in more areas of knowledge, there are other studies with ECTS (Vocational studies) that we could check and discuss once the student arrives.**
- **Please, make sure you fill the Learning Agreement with the CODES given.**
